This is the official list of most Ideal Surf Commands!
I've created this list in order to provide everyone including myself with easy access to CS:GO's most used and most ideal Surfing commands!

😊(No ↘ FALL-DAMAGE!!! ↗ Included)😊

⚠️💡My Reason for Splitting the commands (which I tried making into 1 single list) is due to a limitation with the Console freaking out when combining too many commands at once but I still deem all commands below necessary!💡⚠️

Copy-Paste them all (each box):
